

# WHY NUCA?

## PEELING BACK THE VALUE

### 1. UTILITY CONTRACTORS ONLY

This may be self-explanatory, but it bears repeating:  
**We represent utility contractors and no one else. Period.**

### 2. UGH, THE FEDERAL GOVERNMENT

Think the federal government doesn't impact your business? Think again. Every day, Congress passes laws, the President issues executive orders, and agencies like OSHA, EPA, and the Department of Labor regulate your jobsites. Who's at the table representing your interests? **NUCA has been since 1963.**

### 3. NATIONAL REACH, LOCAL ADVANTAGE

Are you looking for smaller, high-impact **networking** events that lead to real deals?

Do you want access to a trusted **national network** that opens doors beyond this region?

Would **FREE legal guidance** from NUCA's award-winning construction counsel help you navigate local challenges with more confidence?

Are you ready to improve day-to-day working relationships with **utility companies** in your area?

**One yes makes NUCA membership worth it.**
